BooXter Printable Material

Fastbind Printable Tacking Paper™

- Laser tacking sheets in two sizes
- Ink jet Sheets in two sizes and Ink jet rolls in two widths
- Fastbind LamiFree™ tacking sheets do not require lamination as they are specifically designed to resist environmental conditions that adversely affect regular paper and are intended for laser printing only.
- Fastbind LamiFree™ tacking sheets are intended for laser printing only

With over 20 years of experience using materials to make hard covers, Fastbind's cover tacking sheets are second to none! With attention to both printing quality and long durability in mind, Fastbind has engineered the perfect material to make your custom printed hard covers.

Fastbind offers printable tacking sheets for laser and high resolution inkjet printing. You can order them in standard or large format sizes. Fastbind inkjet printable paper is also available in rolls for extra large applications. We highly recommend laminating the prints printed with inkjet or laser tacking sheets to make the cover more durable.

Fastbind LamiFree laser printable tacking sheets do not need laminating.

Fastbind Printable Soft Cover™

- They come standard or pre-creased
- Strong and durable material with a professional look and feel!
- Soft Covers come in A4/US Letter Portrait up to 30 mm (1.1")

Fastbind offers soft covers printable material for laser printing. You can bind from 0.1 to 30 mm thick books. Each box contains 250 pieces (450 x 297 mm). Fastbind printable soft covers are available both as pre-creased and plain versions.

Fastbind Lay-flat Paper™

- Excellent lay flat properties
- Excellent whiteness & opacity
- Prints look fresh & natural with vivid colors
- Makes your books easy to read, hold & show
- Compatible with **Fastbind BooXter** and **Perfect Bind Hot Melt binders**

New, innovative laser printing paper for high quality lay-flat book applications. In addition to excellent lay-flat properties, the new paper runs smoothly through digital printers and reduces stress on book bindings, generating an overall stronger bind with an unparalleled lay flat look!

BooXter Custom Cover Material

Fastbind Grey/Chip Boards

- Made specifically for optimum usage when making custom printed hard covers and cases using the [Fastbind Casematic](#) services case maker!
- We stock many different sizes and spine thicknesses for hard covers
- Compatible with Fastbind Casematic series, all Fastbind binders, Ring Binding and Comb Binding

Fastbind grey boards are pre-cut to the most popular sizes; Portrait, Landscape and Square. These are able to be ordered in whatever quantities are needed to finish the job.

Express Blank Case™

- The quickest method of producing Hard Covers, Cases and [Ring Binders](#). Simply place and wrap the printed graphics around the Express blank case, and your cover is done!
- Stock sizes include common formats for Fastbind Hot Melt and BooXTer binding
- Compatible with Fastbind Case Express case makers

Making personalized hard covers, ring binders and cases with Fastbind Express Blank Cases™ is easier than ever!

For use with Fastbind Case Express, Express Blank Cases come in several different standard formats.

Mounting Tape™

- When using materials such as bonded leather or cloth to make your hard covers or cases, our mounting tape will ensure the grey boards will adhere to your material and make the case making fast and easy!
- Unleash your creativity!

Now you can make custom hard covers or cases with just about any material you chose!

Express Lami™

- The longest and widest single side laminating product available today!
- Made for the on demand market, these laminating sheets eliminate wrinkles in lamination due to its unique design!
- Laminate your printed cover (or anything else)
- Use simple pouch laminator
- Easy placement of picture
- Compatible with all Fastbind Case Makers

New innovative Fastbind Express Lami™ has been designed especially to make high quality single-sided laminating quick & easy. This versatile product can be used to make high-quality personalized hard covers or any single-sided laminating needs, even book contents or high-quality photographs. Fastbind Express Lami™ is compatible with good quality pouch laminators or roll laminators.

Fastbind Laminating Rolls™

- Constant high quality
- Specifically designed for Hard Cover production with wrap-around edge

Laminating Rolls are manufactured of special nylon material that will create very thin (30.5 mic) laminating layer. Fastbind Laminating Rolls is available with matt & glossy surface. They are used for exclusive quality print surface finishing.

BooXter Custom Cover Material

Express Pocket Cover™

- Simple solution for Personalized Hard Covers
- No Case Maker needed
- Use your own print for personalized front cover
- Compatible with all Fastbind BooXTer binders

With the new Fastbind Express Pocket Covers you can make premium personalized hard covers without a separate case maker. Simply print your cover graphics to a one-sided sheet and slide it into a pocket in the front of the cover. The result will be a durable, high quality book in seconds! Fastbind Express Pocket Covers are compatible with all BooXTer binders.

Express Soft Cover™

- Use your own print to personalized the front cover
- Quick, easy and unique soft cover book solution
- Available in black, blue, red and white
- Durable & Strong binding with ease!
- No hole punching required
- No bending required
- Compatible with all Fastbind BooXTer binders

Making soft cover books with the Express Soft Covers is very quick and easy. Use your own print for a personalized front cover and bind it to the thick cover material. The Fastbind Express Soft covers come in four stylish colors and they are compatible with all Fastbind BooXTer binders.

Fastbind BooXTer Standard Hard Covers

- Pre-Made covers offer the fastest and most efficient way to finish hard covers when binding.
- The surface can be foil printed

Fastbind Manager Hard Covers for BooXTer Binders are available in 9.5 mm spine thickness for content max 8 mm. Several landscape and square covers are also available with a keyhole window. Standard colors for Manager hard covers are black dark blue dark red and white.

BooXter Binding Material

End Sheets

- Easy to use
- Compatible with both personalized & classic hard covers
- Specially designed for durable linear stapling hard covers
- Compatible with any stapler

Fastbind BooXTer End sheets are stapled together with the book block and attached to the inside surface of the cover. The end sheets both cover the inside grey board as well as hold the book block into the cover, giving you both an elegant professional look and a floating spine type binding. They come in multiple sizes and several of them are available with a pre-cut window. You need a front and back (pair) End Sheet with each hard cover.

Binding Stripes

- A strong bind every time!
- No hole punching required
- Compatible with any stapler

Fastbind BooXTer binding stripes allow you to bind with two separate covers (for front and back). You can even create a nice looking binding without any cover. Fastbind BooXTer Stripes are designed for stable binding with all BooXTer machines. They are available in black imitation leather. Max. Binding thickness is 8 mm.

Staples

- Wide range of staples
 - Universal sizes
 - Compatible with **Fastbind BooXTer series**
-

BooXter Machine Accessories

Fastbind Cover Setter™

The unit comes in two parts, a setter and a stand. The setter plate can be mounted to BooXTer Uno™ or Trio™ to form a single workstation. Alternatively, the setter plate can be mounted to the accompanying stand to form a standalone cover setting workstation.

The unique design of the Cover Setter™ places the hard cover book block in an up-right position. This position and angle of the unit help align the cover and book block and then using the 4 separate book block space adjusters, you perfectly align the book block into the hard cover each and every time!
