

Compatible with single-sided printing

- Supports any book format from miniature to 45 x 45 cm (1.77 x 1.77") and up to 80 mm (3.15") thick.
- Ready-made covers includes hard covers in 30 x 30 cm (1.18 x 1.18") with 33-52 mm (1.29 x 2.05") spine.
- By expanding into Fastbind Casematic product line you can make personalized hard covers in any format and spine thickness.

The innovative [Fastbind FotoMount](#)[™] product line now allows printers and photographers to create premium tailor-made photo albums from photographic paper, card, laminated material, copy paper and basically any prints. They can produce the matching hard cover with a [Fastbind Casematic](#)[™]. The result is a premium lay-flat photo album, appropriate for company books, wedding albums, baby books, memory books etc.

Fastbind FotoMount is a superior solution, designed specifically with the photographic studio, photo lab and professional photographer in mind. It also perfectly meets the needs of digital printers, copy shops and on demand publishers.

Fastbind [FotoMount Binding](#) machines offer premium quality results for demanding photo books, actor portfolios, exclusive service catalogues and more. For optimal results, hard covers are recommended.

FotoMount Personalized Hard Cover Albums

With Fastbind FotoMount binders, you can make a versatile number of fully or partially personalized hard cover books up to 80 mm/3.15" (up to 110+ flat spreads*) thick. All Fastbind supplies you need is a pair of [FotoMount Binding End Sheets](#), one [FotoMount Mounting Sheet](#) per spread, [Printable Tacking Sheet](#) and the [Custom Cover Materials](#) to make a hard cover book.

With Fastbind there is one solution for completely customized hard covers:

- **Free formats** using [Fastbind Grey/Chip boards](#) (compatible with Fastbind Casematic product line)

* Spread count may vary depending on the used paper type and thickness of the Mounting Sheet.

Features

The [FotoCreaser C33™](#) can be placed on top of the [FotoMount F32™](#)

The finished book opens astonishing 180 degrees

[Fastbind Mountinglift™](#)

High-quality output

With Fastbind Work Station you create always professional and high-quality photo albums with all kind of printed materials: photographic paper, card, laminated material etc. The book cover can be either a standard cover or a digitally printed custom made cover*.

The Revolutionary Mountinglift™ System

1. After printing, crease the pictures in the center with Fastbind [FotoCreaser C33™](#).
2. Bind the creased pictures into a block with Fastbind mounting supplies. Secure the block through the binding process with two magnet clamps, and use the Mountinglift for smooth and accurate positioning. Use the Ideal 4305 Guillotine to trim the block.
3. Place the cover guide on [FotoMount F32™](#) and use the cover positioning holders to secure the cover on its place. Mount the trimmed block to the cover by removing the silicon papers from the end sheets. Your deluxe photo album is ready!

* For top quality personalized hard covers, we recommend Fastbind [case makers](#) (not included) Product information as of February 2009 and is subject to change without notice.
