

Computer-controlled folding machine

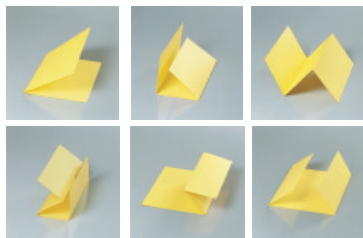

- Automatic setting of the fold
- 6 standard folds are pre-programmed for A5, A4, A3 and one format that you can choose
- Other folds are freely programmable
- Memory space for 9 additional folds
- Stop after the preselected volume
- Folding of single sheets and sheet sets
- Extended delivery increases operator convenience

smartFOLD the excellent A3 machine for the office

Folding has never been so easy. All it needs is a push of a button and smartFOLD is set automatically - not just the fold, but also the paper thickness.

The following folds are pre-programmed:

Other folds can be set and saved by pushing a button.

With smartFOLD, you always get the correct volume. The machine stops automatically after reaching the preselected number of sheets.

Single sheets but also stapled, glued or loose sets of up to 5 sheets can be folded without having to change settings.

**smartFOLD needs 5 minutes
for a job that would keep you
occupied for 3 hours.**

Paper sizes:
max. 30.5 x 43.2 cm
min. 9.0 x 10.0 cm

Fold length:
max. 32.4 cm; min. 4.0 cm

Paper weight:
50 bis 180 g/m²

Speed:
up to 300 sheets/min (depending on material)

Electrical:
230 V/50 Hz

Folding better automatically.
