

# Efficient, multi-functional and cost effective banding of cartons

Damage free banding of cartons

BA80/40-30 with down holder

## Bandall Carton Banding Series

Brilliant and robust design. That's what characterises Bandall's banding systems. These high-quality products, of Dutch manufacture, are *the* innovation in banding and bundling.

The Bandall Carton Series bands...

- **rapidly and reliably**, thanks to the patented band transport system;
- **economically and environmentally friendly**, through reduced use of material - extremely thin paper or film;
- **with printed or blank** materials;
- **without damage**, band tension can be adjusted with precision, achieving stable packaging;
- **cleanly, odour and smoke free**, due to the 'Ultra Clean Seal' system;
- **with low energy costs**, and minimal maintenance.

### Customised configurations

Machines in the Bandall Carton Banding Series are available in a wide range of channel sizes suitable for 28, 48, 75 and 100 mm bands. Bandall banding equipment is also available in fully automatic models. Equipment may also be fitted with an external reel holder, presses and positioning technology. In other words Bandall can be adapted to fulfil any banding requirement.
