# HUGO BECK

Machine program
for film packaging

It's all in the packaging

Efficient converting, finishing and packaging

Intermittently and continuously operating machines for film packaging

Innovative machine solutions for the packaging and finishing of tomorrow.

Horizontal form, fill and seal machines

Intermittent	Capacity cycles/h	Product size
Flexo 500 S Flexo 600 S	up to 5 000 in 2 versions	Length: as of 80 mm Width: 55 – 600 mm Height: 2 – 250 mm
Flexo 500 H for long parts	up to 35 m/min.	Length: as of 800 mm Width: 50 – 450 mm Height: 2 – 200 mm
	up to 90 m/min. *with continuous machines*	
Flexo 500 E Flexo 600 E pusher machines	up to 1 500 in 2 versions	Length: 20 – 1 500 mm Width: 25 – 600 mm Height: 2 – 300 mm
Standard 500 S	up to 5 000	Length: as of 80 mm Width: 25 – 450 mm Height: 2 – 200 mm

Horizontal form, fill and seal machines

Continuous	Capacity cycles/h	Product size
servo X	up to 10 000 in 3 capacity ranges	Length: as of 80 mm Width: 20 – 450 mm Height: 2 – 250 mm
neo X side sealing	up to 12 000 in 2 capacity ranges	Length: as of 80 mm Width: 20 – 450 mm Height: 2 – 150 mm
neo X overlapping	up to 18 000 in 4 capacity ranges	Length: as of 150 mm Width: 50 – 330 mm Height: 2 – 80 mm
neo X advance side sealing and overlapping	up to 18 000 in 4 capacity ranges	Length: as of 150 mm Width: 50 – 330 mm Height: 2 – 80 mm
Super 400 Super 800 for special applications such as header	up to 10 000 in 2 versions	Length: as of 80 mm Width: 20 – 800 mm Height: 2 – 250 mm

Banderoling machines

BP 800	up to 2 000	Length: as of 80 mm Width: max. 700 mm Height: max. 400 mm

Shrink tunnels

SLB and SL types

All tunnel sizes can be supplied according to product dimensions and capacity
