## Belt conveyors

### Belt conveyors with triplex angles

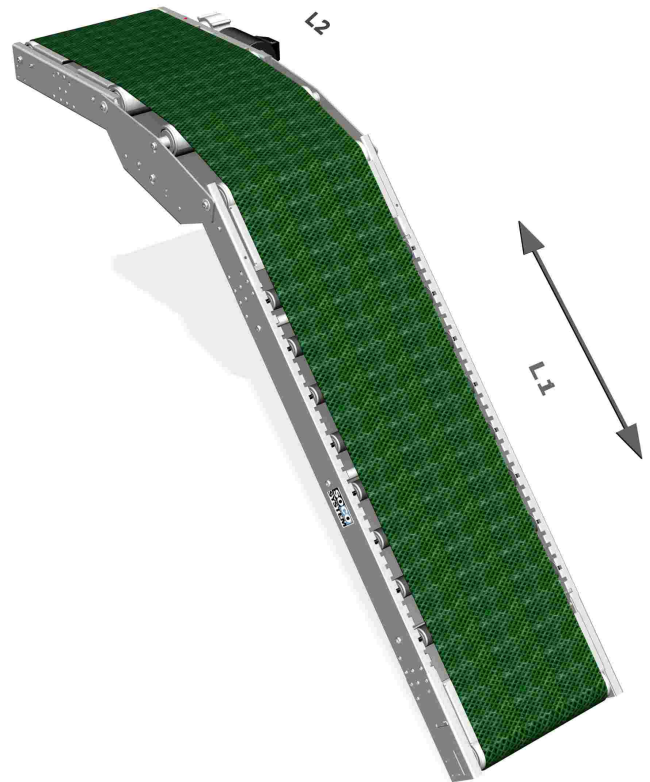

Suitable for transport of items that are not suited for sudden transition from inclined to horizontal transport.

Inclined and horizontal conveyors are manufactured and combined according to requirements.

Available with roller, plate, or grooved plate bedding.

Belts available are smooth belts, grip belts, and food belts.

- Ensure smooth transition between inclined and horizontal transport.
- Suitable for inclined transport of unstable items.
- Low noise level and smooth surfaces.
- The speed can be adjusted by means of various gearings or a frequency inverter.

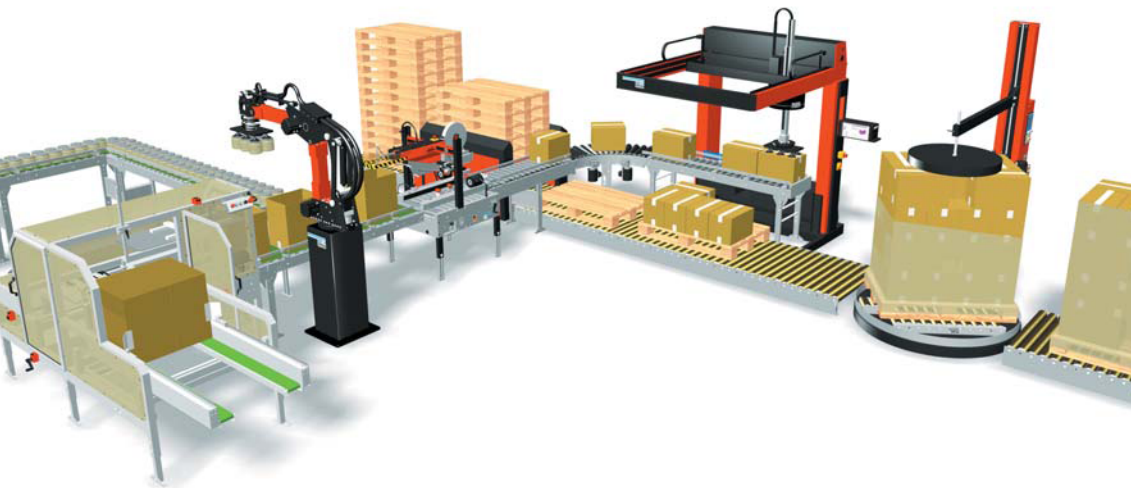

#### Specifications

Tubes	Ø 48 mm impact proof plastic.
Drive unit	0.12 kW or 0.37 kW.
Gear	Standard 40:1 = 10 m/min. Other gearings available. A frequency control system can be connected direct to the 3-phase motor.
Frames	Electro-galvanised steel.
Width	200, 300, 400, 500, 600 mm.
Length	According to requirements.

Subject to alteration.

#### Accessories

- ▶ Supports for belt conveyors and driven roller conveyors

## The SOCO SYSTEM

From case erecting to pallet securing

The SOCO SYSTEM product range handles cases, plastic crates, trays, pallets, and many of your products.

The SOCO SYSTEM product range is designed to increase efficiency and eliminate physically strenuous work functions.

One system – one supplier  
There are many advantages of full product compatibility; less paperwork and no time wasted in adapting products from different suppliers.

Meet your future requirements  
Add modules and functionality, relocate modules, or whatever fits your future needs.

Call us, mail us, or visit us at [www.socosystem.com](http://www.socosystem.com)
