- ACCESSORIES

Belt conveyors

Belt conveyors with roller bedding

Roller bedding is recommended for lengths over 5 m.

Ordering

First choose a conveyor of the desired length and width. Then choose a belt of a corresponding length and width.

Note!

As standard, the motor is fitted on the right side of the belt conveyor, seen in the direction of travel.

If the motor needs to be mounted on the left side, this must be stated upon ordering.

- The construction makes the conveyors ideal for new as well as existing systems.
- Low noise level and smooth surfaces.
- An economical solution for long-distance transportation.

Specifications

Tubes	Ø 48 mm impact proof plastic.
Drive unit	0.12 kW or 0.37 kW.
Gear	Standard 40:1 = 10 m/min. Other gearings available. A frequency control system can be connected direct to the 3-phase motor.
Frames	Electro-galvanised steel.
Width	200, 300, 400, 500, 600 mm.
Length	Available in lengths ranging from 0.75 m to 10 m.
Subject to alteration.

The prices are excluding belts.
All measurements are in mm. Subject to alteration.

Accessories

- ▶ Supports for belt conveyors and driven roller conveyors
- ▶ Smooth belts for belt conveyors
- ▶ Grip belts for belt conveyors

The SOCO SYSTEM

From case erecting to pallet securing

The SOCO SYSTEM product range handles cases, plastic crates, trays, pallets, and many of your products.

The SOCO SYSTEM product range is designed to increase efficiency and eliminate physically strenuous work functions.

One system – one supplier
There are many advantages of full product compatibility; less paperwork and no time wasted in adapting products from different suppliers.

Meet your future requirements
Add modules and functionality, relocate modules, or whatever fits your future needs.
