Driven curves

Curves with conical rollers 90°

With two drives for high loadings.

The curves are available with guide profiles on both the inside- and the outside.

Low guide profile = H1.

High guide profile = H2.

- Driven curves offer smooth product flow.
- Various gearings and a frequency converter provide adjustability of speed.
- Large and heavy items can easily be transported.
- The curves are silent during operation.

Specifications

Tubes	Impact-proof plastic.
Axles	Ø 10 mm.
Gear	Standard 20:1 = 10 M/min. Other gearings are available. A frequency control system can be connected direct to the 3-phase motor.
Drive	With polycord belts.
Frames	Electro-galvanised steel.
Axle pitch	6°.
Width	300, 400, 500, 600 mm.

Subject to alteration.

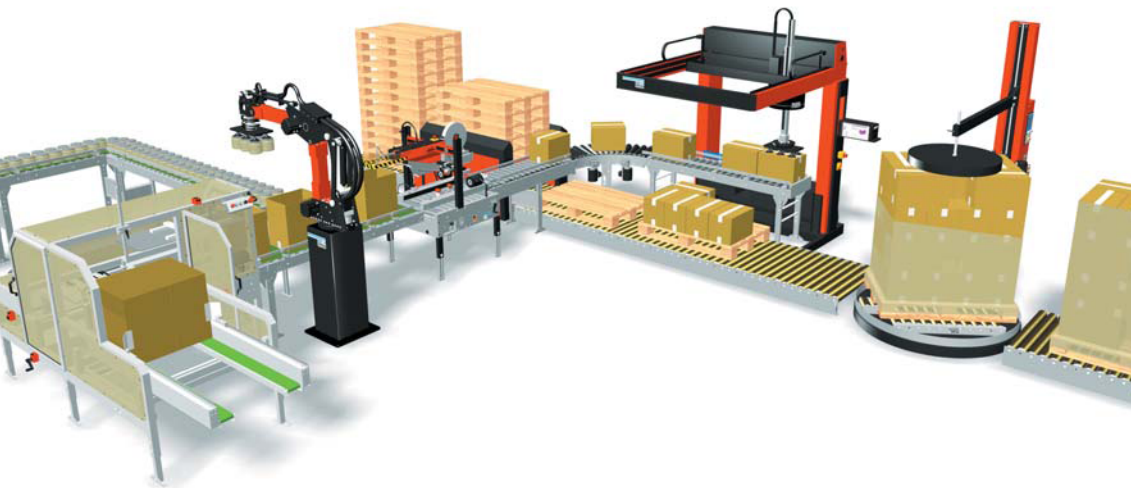

Item numbers

Width	H1 inside + H1 outside/Item no.	H1 inside + H2 outside/Item no.
300	450137345	450137365
400	450137445	450137465
500	450137545	450137565
600	450137645	450137665

All measurements are in mm. Subject to alteration.

Accessories

- ▶ Supports for belt conveyors and driven roller conveyors

The SOCO SYSTEM

From case erecting to pallet securing

The SOCO SYSTEM product range handles cases, plastic crates, trays, pallets, and many of your products.

The SOCO SYSTEM product range is designed to increase efficiency and eliminate physically strenuous work functions.

One system – one supplier
There are many advantages of full product compatibility; less paperwork and no time wasted in adapting products from different suppliers.

Meet your future requirements
Add modules and functionality, relocate modules, or whatever fits your future needs.
