# Case sealers for uniform case sizes

## TT-10 For flat items - Top closure

TT-10 is designed to handle primarily flat items such as graphics, mirrors, cabinet doors, half-knock-down furniture, book parcels, etc. requiring top taping only.

### Basic models

TT-10 and TT-10 Maxi (see table).

### TT-10 Top and bottom sealer

The brush unit can be removed without the use of tools and replaced by a standard dispenser. In this way, the TT-10 can be used as a top and bottom sealer for traditional cases.

- Easy to adjust for different case sizes.
- Easy tape and dispenser replacement.
- Easy to maintain with low maintenance and spare parts costs.
- Electro-galvanised finish.

Specifications	TT-10 5-5-7	TT-10 Maxi 7-5-7
Case dimensions*		
Max. (LxWxH) mm	∞ x 670 x 200	∞ x 880 x 200
Min. (LxWxH) mm	140 x 150 x 10	140 x 200 x 10

Air consumption	Max. 0.3 l at 6 bar per case.	
Tape diameter	Max. 385 mm.	
● Standard ○ Optional		
* Depending on the construction and quality of the case.		
Subject to alteration.		

# Case sealers for uniform case sizes

## **Top dispenser**

*Modified dispenser from SOCO SYSTEM's complete programme. Available for tape widths of 38-50 mm.*

## **Double drive belts**

*Double drive belts at top also provide an effective system for comparatively heavy products handled in the paper and furniture industries. As an extra precaution, the top drive is fitted with an inlet security to stop the machine in case of fingers becoming trapped between the case and the top drive.*

## **Efficient brush system**

*SOCO SYSTEM's unique brush system in the roller table ensures that the tape overlap is brushed down onto the underside of the case.*

## **Sideguides**

*The compact side guide arrangement makes it possible to seal cases which are only a few millimetres high. At the same time, it is designed to handle very heavy cases.*

## The SOCO SYSTEM

### From case erecting to pallet securing

The SOCO SYSTEM product range handles cases, plastic crates, trays, pallets, and many of your products.

The SOCO SYSTEM product range is designed to increase efficiency and eliminate physically strenuous work functions.

#### One system – one supplier

There are many advantages of full product compatibility; less paperwork and no time wasted in adapting products from different suppliers.

#### Meet your future requirements

Add modules and functionality, relocate modules, or whatever fits your future needs.
